

FLEXTOOL POWERVIBE[®] FPV-45, FPV-60

The Flextool PowerVibe is a high-frequency concrete vibrator featuring an integrated motor-in-barrel design, inline inverter control box and inline RCD protection to provide first-class operator safety and comfort.

The Flextool PowerVibe is fully electric which means it can operate with minimal noise and without engine exhaust fumes, making it the ideal choice for jobs in noise sensitive and enclosed environments. The high-frequency vibration technology achieves optimum vibration consistency resulting in more efficient consolidation of concrete when operating under load.
