

FLEXTOOL PROFINISH[®] WALK-BEHIND POWER TROWEL FP424-2 (EDGER)

The Flextool ProFinish Walk-Behind Power Trowel FP424-2 (Edger) is built for the professional contractor. Fitted with precision engineered components including durable spider plates, blade tilt levers and pressure plates, this machine ensures the best possible flat floor results are achieved on each and every slab. The quality FP424-2 enables the operator to finish tight to the wall without marking or marring and easily manoeuvre around obstacles.

Equipped with highly efficient gearboxes, maximum torque is transferred to the trowel rotors for superior performance at low, medium and high rpm.

Designed around operator experience, efficiency and durability, the Flextool ProFinish Series 2 provides optimum balance and smooth operation, making it ideal for residential and commercial projects.

Operator controls

Centrally located on handle bar stem for quick and easy access with cables fully concealed to prevent damage

Blade tilt system

Crank handle pitch mechanism for quick, on the fly adjustment of the blade angle

Lifting hook

Central lifting hook for easy and safe onsite handling

Honda GX160 engine

Provides hassle free operation and low engine emissions

Rotating edge guard

Easily manoeuvre around obstacles and finish tight against wall panels

Height-adjustable and padded handlebar

For superior ergonomics and operator comfort

Bottle holder

For easy storage and access to surface retardant or water bottle

Sealed clutch and belt guard

Protects against the ingress of unwanted materials that can prematurely wear out critical clutch components and V-belt

Heavy-duty gearbox and spider

- Robust and durable design for the toughest panning, floating and finishing applications
- Reduced maintenance and extended service life

POWERED by
HONDA
